Subject: Enhancement of documentation Centre "Passeparcirque". Call for videos and documentation materials (books, posters and brochures)

Dear Artist, dear Company,

Two organisations, the Italian QANAT - Scuola di Cirko Vertigo and the French Arc en Cirque, joined in a project aimed at preserving, enhancing and promoting the cultural and artistic heritage of circus arts, through artistic and pedagogic exchanges, the constitution of an artistic collective and sharing a virtual bilingual library.

The project is realized with the contribution of FEDER, ALCOTRA Program 2007-2013. For further information you can visit the website www.passeparcirque.com.

The purpose of the two circus organisations is to share their own resource centres in order to make all documents (works, magazines, posters, photos and videos) located in the two location visible and open thanks to a common virtual and bilingual library.

Another purpose is to create a shared database of artists and companies as further means of communication among them, using pictures of shows, acts as well as communication folders of artists and companies. This will also help all protagonists of creation and promotion of circus arts to access to a whole archive of constantly updated information.

We will be grateful if you could send us the videos of your shows and acts, so as to receive a higher visibility towards show and entertainment promoters and planners, through our internet site and, at the same time, this will enable us to improve the audiovisual resources of our library.

You can send your videos, as well as all documentation materials to one of the following addresses:
